A special Thanks to the Women’s Ambulatory Health Services for all the help for  
this study.

\*CEHDL is a consortium led by University of Connecticut in close partnership with the Hartford Hospital and Hispanic Health Council and is funded by the NIH Center on Minority Health and Health Disparities grant #P20MD001765. This center is dedicated to working towards eliminating and preventing health disparities among Latinos through: community based research designed to understand health disparities and develop strategies towards eliminating them; training health students and professionals; and culturally appropriate community outreach and education.
